

Mitsubishi CP-M15 Printer SPECIAL LAUNCH OFFER (Model: Mitsubishi CP-M15 Printer)

Mitsubishi CP-M15 Printer is PC / MAC compatible

The all new CP-M15 Photo printer has been designed to be compact making it ideal for your event and retail business. The high capacity media allows you to print up to 750 6x4 prints before changing media. Print multiple sizes with the same roll of paper thanks to its clever rewind feature giving you maximum flexibility and saving you time and money.

User-Friendly Media Replacement

The new media exchange method is user-friendly design which makes media reloads quick and easy. It allows immediate loading when taken out of the box. Media replacement is so simple as 3 easy steps accessible from the front of the printer

High Capacity & Compact Design

Maximize space and maximize capacity with this compact design. Compact yet high volume of 750 prints (4x6") per roll. Reduce need for media change frequency, saving time and operations cost.

*** Metal print tray optional not included***
